(57) Abstract :

ABSTRACT The present invention relates to the novel use of grinded Psidium guajava seeds as a scrubbing agent for use in the cosmetic industry, particularly, in skin scrub compositions. The invention is essentially characterized by combining grinded Psidium guajava seeds with a cosmetically acceptable scrub carrier such as oil, cream, or gel. A method for making the scrub compositions of the invention, and a method for exfoliating the skin using the scrub compositions ideal for use in commercial spas are also provided.
